To whom it may concern:

It is with much enthusiasm that I am writing to recommend the website design, development, and marketing services of Nighthawk Marketing.

The Nighthawk Marketing team recently redesigned and developed the website for the Minnesota State Retirement System (MSRS) and we found their work to be outstanding. Throughout the phases of work, I have found the Nighthawk Marketing team to be creative, conscientious and detail-oriented.

In our work together, they took the time to understand our needs and user audiences in order to design a website that supports our brand and mission. We are always pleased with their work and if we ever have changes they are completed quickly and efficiently.

I am happy to recommend the services of Nighthawk Marketing and look forward to working with them in the future. Please contact me directly if you have further questions.

Sincerely,
